Duties, Stamps and Taxes; and do not therefore correspond exactly with the figures in Tables Nos. 2 and 4, which give the payments made into the Exchequer "Exchequer Receipts," on account of these duties in each year.

† Exclusive of proportion of duty carried to Local Taxation Accounts.

‡ Exclusive of proportion of Probate Duty collected for Local Authorities (see Table No. 12, p. 32).

†† The amounts under the several schedules show the approximate produce of the Tax based on the assessments of property and income under each schedule.

††† Prior to 1894-5 all Death Duties were included under the general head of Stamps.

* Amount not specifically mentioned in the Budget.

† In addition to the loss by repeal of the Malt duty, Drawback was allowed on Stocks in hand on 30th September, 1880. This was estimated in the Budget at 950,000*l.*, but amounted to 1,329,017*l.*

‡ Estimated result after an interval of several years.

§ In this year the produce of Fee and Patent Stamps hitherto forming part of the Stamp Revenue was transferred to Miscellaneous Revenue: had this represented a reduction of Income the amounts which would have appeared in the above columns would have been 855,000*l.* and 855,000*l.* under the head of "Budget Estimate," and 832,211*l.* and 856,832*l.* under the head of "Result," respectively.

NOTE.—The loss to Revenue caused by the reduction of Taxes is in most cases less than the gain which the reduction affords to the taxpayer, because the loss to Revenue is generally recouped by an increased consumption or use of the articles taxed consequent upon the lowering of the duty. Hence the loss is not necessarily the measure of relief to the taxpayer.

* Amount not specifically mentioned in the Budget.

† This is the actual decline in the produce of the Stamp Duty on Marine Insurances for one year after the alteration of the Duty. It is quite possible, however, that the improvement in trade may have obscured in part the loss of the Budget concession.

NOTE.—The loss to Revenue caused by the reduction of Taxes is in most cases less than the gain which the reduction affords to the taxpayer, because the loss to Revenue is generally recouped by an increased consumption or use of the articles taxed consequent upon the lowering of the duty. Hence the loss is not necessarily the measure of relief to the taxpayer.

* The Budget Estimate of the additional duty on Bottled Wines applied only to the year 1888-9. In consequence however, of a Resolution of the House of Commons the imposition of such additional duty took effect on 27th March 1888.

NOTE.—As an increase of duty may lead to a diminished consumption or use of the articles taxed, the gain to Revenue is not necessarily a measure of the burden of the increase on the taxpayer.

NOTE.—The loss to Revenue caused by the reduction of Taxes is in most cases less than the gain which the reduction affords to the taxpayer, because the loss to Revenue is generally recouped by an increased consumption or use of the articles taxed consequent upon the lowering of the duty. ‡ The insertion of final figures in this column is deferred. The actual gain under Estate, &c., Duties in 1895-6 over 1893-4 was 4,023,000£, but some portion of this is believed to have been due to exceptional causes.

|| The Extra Duty of 6d. per barrel on Beer was re-imposed for another 12 months, but as it involved no increase of taxation as compared with the preceding year, no fresh entry is made in this Table for 1895-6.

NOTE.—As an increase of duty may lead to a diminished consumption or use of the articles taxed, the gain in Revenue is not necessarily a measure of the burden of the increase on the taxpayer.

* New assessments under Schedules A and B came into force for the Metropolis in 1881-82, 1886-87, and in 1891-92, and for the rest of the United Kingdom in 1882-83, 1885-86, 1888-89 and 1892-94.

† The apparent increase in this amount as compared with that of the previous year arises from the duty being charged at this of the rate in force, in lieu of the Parliamentary deduction of 1th being made from the gross rental of tithe free lands in England before being charged to duty. Allowing for this there is an actual decrease of about 1,623,905l. in the net value of lands in England for 1882-83.

‡ For the year ended 5th April 1883 and subsequently, all assessments on interest of Municipal and Corporation Stocks are included under Schedule D instead of being shown in part under Schedule C and in part under Schedule D, as in former years.

§ The tax was levied on incomes of and above 150l. per annum (with abatement of 120l. on incomes under 400l.) for the years 1881-82 to 1893-94, and on incomes above 160l. (with abatement of 160l. on incomes not exceeding 400l. and an abatement of 100l. on incomes exceeding 400l.) for the year 1894-95.

¶ Not yet completely ascertained.

* A great change was made in the death duties in 1881-2, and from that date Property assessed to Probate Duty constitutes the true record of personally changing lands by death
 † In these two years the capital was abnormal in amount, the operation of the Land Act of 1881 and the fixing of Judicial Rents having led to delay in recovering duty due for former periods.
 ‡ The Probate Duty was repealed by Act 57 & 58 Vict. cap. 30.

NOTE.—More precise information having been obtained as to the receipts of Local Authorities for the year 1882-3, it was discovered that in previous years large sums received in respect of the sale of gas and water by Urban Sanitary Authorities had been returned as receipts from Rates. The figures for previous years have been corrected as far as possible, and now show, as nearly as the accounts will allow the receipts from Rates. Repayments to local authorities on account of private improvement works executed by them, and previously included as rates, have also been excluded.

Note.—This Return includes Channel Islands vessels, and, up to 1891, Foreign-going vessels belonging to the Isle of Man for which crews were engaged at Ports in the United Kingdom. From 1892 all Foreign-going vessels belonging to the Isle of Man are included.

The number of persons employed in the year is the sum of the number of persons forming the first crew of each vessel employed during the year.

The Home Trade includes vessels trading or going within the following limits, viz.: the United Kingdom, the Isle of Man, the Channel Islands, and the Continent of Europe between the River Elbe and Brest.

The Foreign Trade includes vessels trading or going beyond the above limits.

Some vessels known to be trading abroad are omitted from the Return, because no late information of the number of their crews could be obtained.

* The number of Patents actually sealed under the Act of 1883 during each year is given instead of the number of Patents sealed in respect of the applications of that year. This accounts for the small number sealed in 1884, the majority of the applications in that year having been sealed in 1885.

† The Patents, Designs, and Trade Marks Act, 1883, which came into operation on 1st January 1884, first provided for the registration of designs in sets.

Duties, Stamps and Taxes; and do not therefore correspond exactly with the figures in Tables Nos. 2 and 4, which give the payments made into the Exchequer "Exchequer Receipts," on account of these duties in each year.

‡ Exclusive of proportion of Probate Duty collected for Local Authorities (see Table No. 12, p. 32).

†† The amounts under the several schedules show the approximate produce of the Tax based on the assessments of property and income under each schedule.

††† Prior to 1894-5 all Death Duties were included under the general head of Stamps.

* Amount not specifically mentioned in the Budget.

† In this year the produce of Fee and Patent Stamps hitherto forming part of the Stamp Revenue was transferred to Miscellaneous Revenue: had this represented a reduction of Income the amounts which would have appeared in the above columns would have been 855,000*l.* and 855,000*l.* under the head of "Budget Estimate," and 832,211*l.* and 856,532*l.* under the head of "Result," respectively.

NOTE.—The loss to Revenue caused by the reduction of Taxes is in most cases less than the gain which the reduction affords to the taxpayer, because the loss to Revenue is generally recouped by an increased consumption or use of the articles taxed consequent upon the lowering of the duty. Hence the loss is not necessarily the measure of relief to the taxpayer.

* Amount not specifically mentioned in the Budget.

† This is the actual decline in the produce of the Stamp Duty on Marine Insurances for one year after the alteration of the Duty. It is quite possible, however, that the improvement in trade may have obscured in part the loss of the Budget concession.

‡ The amount mentioned in the Budget was 25,000l., but that referred to the total repeal of the Licence which was not carried out.

NOTE.—The loss to Revenue caused by the reduction of Taxes is in most cases less than the gain which the reduction affords to the taxpayer, because the loss to Revenue is generally recouped by an increased consumption or use of the articles taxed consequent upon the lowering of the duty. Hence the loss is not necessarily the measure of relief to the taxpayer.

* The Budget Estimate of the additional duty on Bottled Wines applied only to the year 1888-9. In consequence however, of a Resolution of the House of Commons the imposition of such additional duty took effect on 27th March 1888.

† Average receipt of four years 1890-1 to 1893-4.

NOTE.—As an increase of duty may lead to a diminished consumption or use of the articles taxed, the gain to Revenue is not necessarily a measure of the burden of the increase on the taxpayer.

* Including a small estimate of sums yet to be reported.

† The sums inserted here are equivalent to the gain in 1894-5 (shown in that year), when the duty was correspondingly increased. But notwithstanding the decrease of the rate of duty there was an increase of 19,661*l.* in the Customs Revenue from Foreign Spirits, and of 334,000*l.* in the Excise Revenue from Spirits.

‡ As stated by Chancellor of Exchequer in Debate on Finance Bill, 1896.

§ Insertion of amount deferred until more experience has been obtained.

‡ Approximate amounts.

NOTE.—The loss to Revenue caused by the reduction of Taxes is in most cases less than the gain which the reduction affords to the taxpayer, because the loss to Revenue is generally recouped by an increased consumption or use of the articles taxed consequent upon the lowering of the duty. Hence the loss is not necessarily the measure of relief to the taxpayer.

* The full annual value of lands is given under Schedule B. The profits from the occupation of farm lands were by law deemed to be equal in England and Wales to one-half, and in Scotland and Ireland to one third the full annual value of the lands up to 1834-5. From 1834-5 a uniform rate of 3d. in the £ was charged (by Finance Act) as the equivalent for the 6d. rate charged under other schedules of the tax.

† Including in 1885, 28,821 $\frac{1}{2}$, in 1886, 56,731 $\frac{1}{2}$, in 1890, 34,637 $\frac{1}{2}$, in 1891, 45,977 $\frac{1}{2}$, in 1892, 47,237 $\frac{1}{2}$, in 1893, 43,387 $\frac{1}{2}$, in 1894, 220,665 $\frac{1}{2}$, and in 1895, 203,726 $\frac{1}{2}$, and in 1896, 180,975 $\frac{1}{2}$, annual value of land, the occupiers of which have elected to be assessed for their profits under the rules of Schedule D. (per Act 50 & 51 Vict. c. 15).

‡ For the year ended 5th April 1893 and subsequent years, all Assessments on Interest of Municipal and Corporation Stocks are included under Schedule D, instead of being in part under Schedule C, and in part under Schedule D, as in former years.

* New assessments under Schedules A and B came into force for the Metropolis in 1881-82, 1886-87, and in 1891-92, and for the rest of the United Kingdom in 1882-83, 1885-86, 1889-89, and 1893-94.

† The apparent increase in this amount as compared with that of the previous year arises from the duty being charged at 4ths of the rate in force, in lieu of the Parliamentary deduction of 4th being made from the gross rental of the free lands in England before being charged to duty. Allowing for this there is an actual decrease of about 1,620,067 in the net value of lands in England for 1882-83.

‡ For the year ended 5th April 1888 and subsequently, all assessments on interest of Municipal and Corporation Stocks are included under Schedule D instead of being shown in part under Schedule C and in part under Schedule B, as in former years.

§ The tax was levied on incomes of and above 150*l.* per annum (with abatement of 120*l.* on incomes under 400*l.*) for the years 1881-83 to 1893-94, and on incomes above 150*l.* (with abatement of 150*l.* on incomes not exceeding 400*l.* and an abatement of 100*l.* on incomes exceeding 400*l.*, and not exceeding 500*l.*) for the years 1894-95 and 1895-96.

NOTE.—More precise information having been obtained as to the receipts of Local Authorities for the year 1892-3, it was discovered that in previous years large sums received in respect of the sale of gas and water by Urban Sanitary Authorities had been returned as receipts from Rates. The figures for previous years have been corrected as far as possible, and now show, as nearly as the accounts will allow, the receipts from Rates. Repayments to local authorities on account of private improvement works executed by them, and previously included as rates, have also been excluded.

† Including Masters.

Note.—This Return includes Channel Islands vessels, and, up to 1891, Foreign-going vessels belonging to the Isle of Man for which crews were engaged at Ports in the United Kingdom. From 1892 all Foreign-going vessels belonging to the Isle of Man are included.

The number of persons employed in the year is the sum of the number of persons forming the first crew of each vessel employed during the year.

The Home Trade includes vessels trading or going within the following limits, viz.: the United Kingdom, the Isle of Man, the Channel Islands, and the Continent of Europe between the River Elbe and Brest.

The Foreign Trade includes vessels trading or going beyond the above limits.

Some vessels known to be trading abroad are omitted from the Return, because no late information of the number of their crews could be obtained.

* The number of Patents actually sealed under the Act of 1883 during each year is given instead of the number of Patents sealed in respect of the applications of that year. This accounts for the small number sealed in 1884, the majority of the applications in that year having been sealed in 1885.

† The Patents, Designs, and Trade Marks Act, 1883, which came into operation on 1st January 1884, first provided for the registration of designs in sets.
